HAND-HELD RADIO

**COMPACT  
WITHOUT  
COMPROMISE**

Going further in critical communications

Small and light enough to be lapel-worn, the SC21 is a next-generation, smart TETRA hand-held radio, and the latest addition to the SC2 Series.

With a wide range of functionality inherited from the ground-breaking SC20 hand-portable – yet 25% smaller – it offers all the benefits of a compact radio, with no compromise on performance.

## NO-COMPROMISE RF PERFORMANCE

With a **best-in-class TETRA engine**, the SC21 allows you to keep communicating where other small handsets fail.

Class 3 high-power RF transmission, coupled with **exceptional receive sensitivity**, gives the SC21 extended operational range, stretching coverage into areas where it was not possible before.

## NO-COMPROMISE AUDIO

The SC21's **best-in-class audio capability** allows for rich, clear voice communication, however noisy the environment. The powerful, directional speaker projects audio to the user's ear, providing extra clarity, and **unique Water Porting technology** ensures that clarity is maintained, even in continuous, heavy rain.

## NO-COMPROMISE WORKER SAFETY

The SC21's **advanced worker safety features** offer peace of mind for lone or remote workers at all times of day or night.

From automated Man-Down and Lone Worker protection, to biometric user health monitoring, location tracking and a dedicated emergency button, in the event of a crisis, help is never far away.

## NO-COMPROMISE USABILITY

Many small hand-helds use smaller screens and keypads, limiting real-world usability. The SC21 has a **2.4" high resolution QVGA screen** – the largest on any TETRA hand-portable – allowing for quick and easy viewing in all light conditions, including direct sunlight. Night mode reduces glare in low light, and the large screen area is ideal for data-rich apps usage.

**Well-spaced keys** make data entry swift and accurate and the **intuitive user interface** is compatible with the SC20/STP range, making it easy to pick up and use with minimal training.

The **shortcut and notification bar** gives instant access to five favourite features, indicates missed calls or messages, and alerts the user to any changed states, such as speaker mute or transmit inhibit.

Custom-definable **SmartMenus** give users swift and immediate access to frequent features, short data applications and the forthcoming Sepura SmartApps.

## NO-COMPROMISE SMART CONNECTIVITY

Today's TETRA handsets are the central hub of connected body-worn devices, from barcode readers and RFID scanners to smartphones, smart watches and tablets. The SC21 offers both **Bluetooth and Wi-Fi connectivity**, allowing fast access to data for business and mission critical applications.

## NO-COMPROMISE SECURITY

Designed for mission critical use, the SC21 supports all levels of cryptographic protection inherited from the SC2 and STP series.

## LOWER COST OF OWNERSHIP

100% compatibility with STP RAC-based and SC20 sRAC-based accessories – along with common battery solutions – allows for significant re-use of existing investments and minimises capital expenditure.

## **CARE WORKERS**

"I work alone. Man-Down gives me peace of mind while I focus on the task in hand."

## **FRONT-LINE PUBLIC SAFETY**

"Size counts, but audio clarity is critical. The SC21 delivers both."

## **SENIOR PUBLIC SAFETY OFFICERS**

"At last! A handset that is small but still powerful."

## **COVERT OFFICERS**

"It's so compact and easy to conceal, no one would know I'm on a covert operation."

## **SECURITY**

"The range of specialist accessories makes it ideal for discreet use."

## **TRANSPORT OPERATORS**

"The SC21 is lightweight, easy to use and unobtrusive. It's perfect!"

# SC21

## **LOCATION-BASED SERVICES**

Via GPS; RFID tag supports tracking of pool-issue radios

## **UNIQUE WATER PORTING**

Expels liquid, maintaining clear communication even in heavy downpours

## **ENHANCED APPS CAPABILITY**

New Sepura AppSPACE supports integration with body-worn devices

## **UNIQUE NOTIFICATION BAR**

Gives rapid access to favourite features, indicates missed calls and messages, and clearly shows changed states such as speaker mute

## **UNIQUE SMART MENUS**

Allow customisable presentation of features and hundreds of soft key functions

## **OPTIMISED FOR COVERT USE**

With streamlined contours and a wide range of covert accessories

## **EXTENDED OPERATIONAL RANGE**

Class 3 RF transmission power and exceptional receive sensitivity for unrivalled coverage

## **BEST-IN-CLASS AUDIO**

Directional speaker provides outstanding sound quality, even in the noisiest environments

## **ACCESSORY RE-USE**

Compatible with all STP and SC20 batteries, as well as RAC- and sRAC-based accessories

## **LARGE, SUNLIGHT-VISIBLE SCREEN**

The largest on any TETRA hand-held radio, for easy apps use and screen clarity in all conditions

## **ERGONOMIC KEYPAD**

Well-spaced, hard-capped keys with haptic response for accurate data entry, even with gloved hands
